

Surrogacy with Your Own Surrogate

A LA CARTE PROGRAM & PRICING

Our **Surrogacy with Your Own Surrogate a la Carte Program** is for intended parents who have identified a gestational surrogate on their own for their surrogacy journey, and who wish to pursue an independent journey. In this program, Circle Surrogacy will work with your clinic of choice to set you up for success until you are pregnant, and then you will manage the entirety of your journey.

Some clinics may require you work with a surrogacy agency to ensure your surrogate is properly screened and ready for a surrogacy journey. That's where Circle comes in: we can perform your surrogate screening, handle contracts, perform the surrogate's insurance review and assist in the set up of local monitoring and escrow management (if you choose).
